I N A R C H I

Janos Héder and Judit Zoltai are well-known when it comes to designer lamps and installations - for good reason. They have not only been the designers of, but the driving force behind the success story of the decade, bringing chandeliers to life for projects all over the World, inspiring and uplifting the thousands of people who see them every day.

So, one could ask - what is the sum of all knowledge accumulated?

The challenging art of minimalism, where every millimetre is accounted for. The craftsmanship that cumulates into uncluttered designs, unprecedented aesthetic value, and profound functionality.

Simplicity. Beauty.

Vesoi

Made in Italy.

Man made soul of industry, where intelligence and passion became fuel of lighting project. All are produced in a workmanlike manner, thanks to our culture acquired over time, true mind-made design.

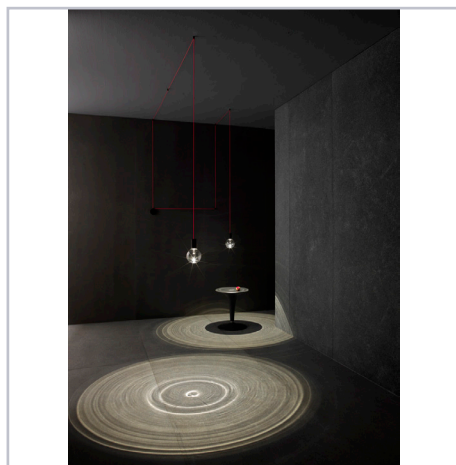

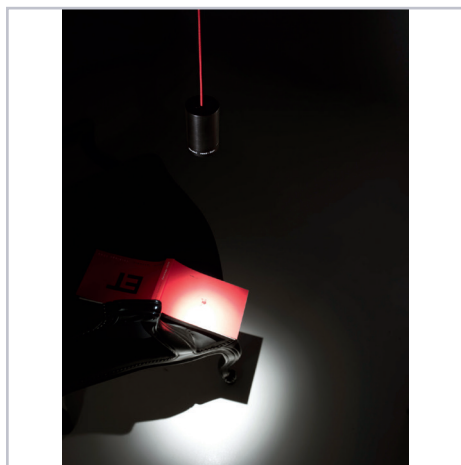

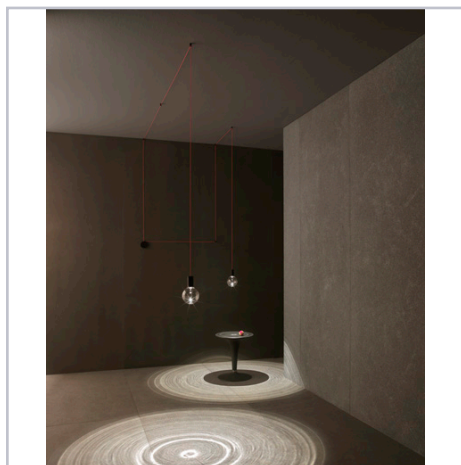

Eco-design.

Environment and design are important the same way: from manufacture to everyday use, for us and society where we live believing in the work that respects man and his habitat.

The people.

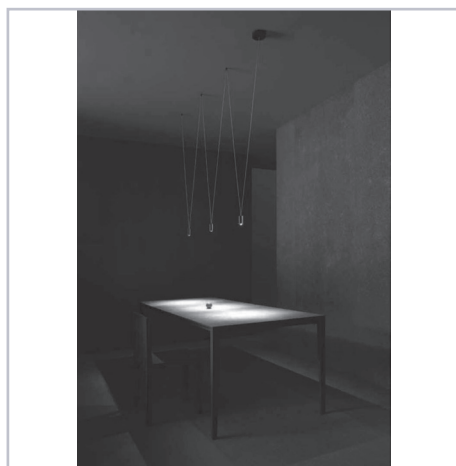

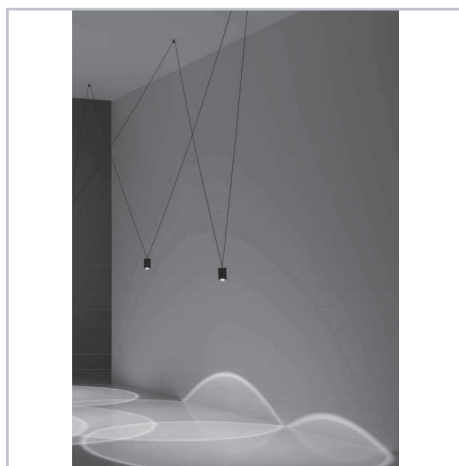

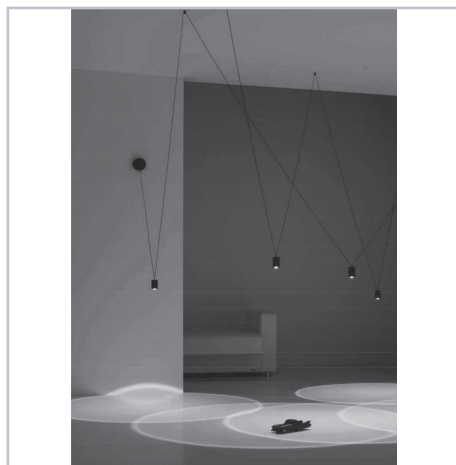

We produce for people, we study innovative sources where you can get new and exciting lighting directions usable in an intuitive way, comfortable, for human need.

lucifero's

Creativity, innovation and curiosity with advanced technology and reliability.

Our strength is rooted in our love for this wonderful profession, for the materials, for the know-how that comes from experience accumulated over many years, and from the understanding that a successful company is based on a close-knit team of people, who experience their work more as a passion than a necessity.

Our products, standard or customised, are included in a wide range of different projects, such as chain stores, universities, shopping centres, offices, museum and private homes.

Made in Italy is part of our culture.

Founded in 2002, Dosis Lighting Factory is a young and dynamic company. We design, develop, produce and assemble architectural lighting fixtures in our factory in Genk, Belgium.

Quality, customer support and short delays is what we stand for. Long term partnership is what we are looking for.

Dosis has partnerships with well known designers, engineers and tool builders. We create very-up-to-date designs using first-quality components and the latest technology from European suppliers such as Philips, bridgelux, TCi, Vossloh Schwabe and Citizen to name a few.
